FROM FARM TO CUP

THE PLAGUE OF PLASTIC STRAWS IS A GLOBAL PROBLEM DAMAGING OUR OCEANS AND ENVIRONMENT, WHILE THE USE OF PAPER FOR STRAWS REQUIRES TREES TO BE CHOPPED DOWN AND ENDS UP WITH A SOGGY SIP.

THAT'S WHY WE LOOKED AT THE TOOLS FROM THE NATURAL WORLD OUR ANCESTORS USED AND REALIZED WHY A STRAW IS CALLED A STRAW.

BECAUSE THEY'RE MADE OF STRAW!

OUR STRAWS ARE MADE FROM THE DISCARDED WHEAT STALK LEFTOVER FROM HARVESTING WHEAT. WE USE A SPECIALLY DESIGNED SYSTEM THAT TRIPLE RINSES, SORTS AND STERILIZES WITH UV LIGHT EVERY SINGLE WHEAT STRAW. THESE AMAZING WHEAT STRAWS ARE THE MOST NATURAL ECOFRIENDLY DRINKING STRAW IN THE WORLD.
